# Quality policy

## A commitment

For Repack-S, the company's growth is:

- **A joint project:** To become the European leader in the engineering of high performance sealing and guidance solutions
- **A vocation:** To design and develop innovative products in order to differentiate itself from its competitors
- **A partnership** with key players (customers, suppliers, employees, shareholders, etc)
- A competent, involved, trained and informed **team**

In this context, the management is committed to:

- Managing the quality and **maintaining the performance of the QMS** by setting up and maintaining the necessary resources: human, material and technical, organisational and financial
- **Complying with the regulatory,** legal and internal requirements of our company
- **Satisfying customers, listening** to their needs and **delivering** on our commitments
- **Improving** our efficiency and performance by deploying a continuous improvement plan
- **Developing and maintaining** employee skills and know-how

CEO

## Objective deployment

From this commitment

- **4 major goals that are known & regularly adapted**

- Differentiate, innovate and grow sales in strategic markets
- Satisfy our customers by improving our services and controlling our supply chain as well as our costs
- Continually adapting our organisation to the needs of our customers and the market. And, therefore, obtain AS9100 certification
- Maintain our effectiveness and performance by implementing corrective and preventive actions aimed at zero defects

- **That are deployed through:**

The establishment of a quality management system based on compliance with regulatory, legal and other requirements and standards in force.

Measurable projects and objectives, whose progress and results are analysed monthly in the steering committee.

The involvement and information of all staff

**To carry out** this quality approach, I will rely on our Quality Manager, who will have the authority to enforce all the provisions of our system.
